THOMAS MILLINGTON,

IMPORTER AND DEALER IN PLATE, CROWN, SHEET, ROUGH PLATE, AND COLOURED WINDOW GLASS.

SHEET GLASS.

This article can be supplied of any thickness, either English or Foreign; the latter we have packed in ONE, TWO, AND THREE HUNDRED FEET CASES, which is acknowledged to be FAR SUPERIOR IN QUALITY and CHEAPER in every respect to any hitherto adapted for CONSERVATORIES than the Rough Plate, which we consider totally unfit for the purpose, the light so essential for the growth of plants being so much obscured in dull weather.

PLATE GLASS

of the finest finish and colour. Estimates for large and small quantities forwarded upon being furnished with particulars.

ROUGH PLATE GLASS.

Persons cannot be too particular in the selection of this article, as that forced upon the public of uneven surface, brittle texture, and filled with fire flaws, does not alone disappoint the purchaser, but endangers the safety of those who stand underneath it. We deal in the best only, which is

PERFECTLY FLAT, OF GOOD SUBSTANCE, AND REALLY COMBINES STRENGTH WITH ECONOMY.

87, BISHOPSGATE-STREET WITHOUT, SAME SIDE AS THE EASTERN COUNTIES RAILWAY.

TO ARCHITECTS, BUILDERS, CONTRACTORS, &c.

HARTLEY'S PATENT ROUGH PLATE GLASS,

One-eighth of an inch thick, weighing two pounds to the foot, for

RIDGE AND FURROW ROOFS, GREENHOUSES, RAILWAY STATIONS, ENGINE SHEDS, MILLS, MARKET HALLS, AND PUBLIC BUILDINGS GENERALLY.

SPECIMENS TO BE SEEN AT THE EXHIBITION, in the extreme south-eastern end of the building, adjoining the United States department.

It being universally admitted that Glass in Roofs of a permanent character should not be less than one-eighth of an inch thick, weighing two pounds to the foot, whilst any greater thickness or weight is unnecessary, leading only to additional expense, Messrs. JAMES HARTLEY and CO. have directed their attention to the manufacture of a description of

ROUGH PLATE GLASS THAT COMBINES SIZE AND STRENGTH WITH ECONOMY OF COST.

The PATENT ROUGH PLATE, one-eighth of an inch thick, or two pounds to the foot, is manufactured in sizes expressly for Ridge and Furrow Roofs 48 by 18 inches, thus giving a span of 16 feet at a price not exceeding weight for weight that of common Crown Glass.

Not being transparent, blinds are unnecessary, and when used in conservatories no scorching occurs; the NONTRANSPARENCY and strength renders it eminently suitable for the Glazing of Conservatories and Roofs of all kinds, also Factories, Workshops, &c., for which purposes it is supplied in squares of all sizes, from 1 by 1 in. to 8 and upwards.

For further information apply to any respectable Glass Merchant in London or the Country, or to the Manufacturers, Messrs JAMES HARTLEY and CO., Wear Glass Works, Sunderland.

N.B.—The Patent Rough Plate is also manufactured 3-16ths and ¼ inch thick, and can be supplied at a much lower cost than the common Rough Plate.—May 1, 1851.

CHURCH DECORATORS, MANUFACTURERS, & EMBROIDERERS,

TEMPLE ROW HOUSE, BIRMINGHAM,

And at the extreme end of the South-west Gallery, near the great organ, at the GREAT EXHIBITION.

H medium.	

Sold by all the principal Stationers in town or country.

E. WOLFF & SONS' newly-invented CRETA LAVIS, or PERMANENT DRAWING CHALKS, in cedar, in every variety of colour.—E. WOLFF and SONS beg to state that they have, by the introduction of great improvements in their CRETA LAVIS, enabled it to be used the same as the ordinary pencils; and effects can now be produced equal to water-colour drawings, without the use of water or any other fluid; the various colours blending together with perfect harmony, beauty, and richness. It can be cut to a fine point, and is then capable of giving a very delicate outline. For stretching from Nature, the great advantages resulting from the adoption of the CRETA LAVIS must be obvious, as, without the use of water, palette, brushes, &c., all the various tints can be obtained with a truthfulness that cannot be surpassed, and by their compact form may be carried any distance without the slightest inconvenience, thus superseding every other method in general use. The drawings may be carried in a portfolio with safety, as, unlike other crayons, they will neither rub off nor suffer injury by coming in contact with the usual contents of a portfolio. The CRETA LAVIS, unlike the indelible or wax crayons, WILL NOT BE AFFECTED BY HEAT OR CHANGE OF CLIMATE.

E. WOLFF and SONS' IMPROVED CRAYON PAPER is the best for the CRETA LAVIS. To be had of all Artists' Colourmen and Respectable Stationers, in leather boxes, containing sets of 6, 12, 24, 36, 48.—A Pattern Card, containing the whole of the shades and colours of the CRETA LAVIS, with their names and numbers attached to each shade, price 1s. each. CAUTION.—As there are several spurious imitations, it is necessary to observe that every Pencil is stamped, "CRETA LAVIS, E. WOLFF and SONS," London, with name of the colour.—Creta Lavis Drawings sent to copy at C. E. CLIFFORD'S, 10, Piccadilly.

Manufactory, 19 Church-street, Spitalfields, London.

THE METALLIC PAINT, produced by the PATENT ALKALI COMPANY, has been extensively used for several years on farm buildings, iron bridges, roofs, and railings, shipping, &c., and it is universally admitted that it covers a greater surface than any other pigment, and stands far better on wood, iron, Aberthaw lime, and Roman cement, than the ordinary paints. Fine black, 28l. per ton; rich purple brown, 30l. per ton.

Company's Offices, 1, New Broad-street, London.

JOHN A. WEST, Secretary.

PATENT WHITE ZINC, ANTIMONIAL, and other metallic PAINTS, greatly improved in the manufacture, may now be had in any quantity; also whitelead and painters' materials of every description.

Wholesale buyers and the trade supplied on liberal terms.

VACUHAN and SYMONDS, South-wark Steam Colour Works, Stamford, Borough, London.

PATENT WHITE ZINC PAINT.—JOHN WARNER and SONS are prepared to supply this paint to builders, painters, and plumbers, on wholesale terms. It is free from all poisonous qualities, it is unaffected by sea-water, sulphuretted hydrogen, or any of the gases; and preserves its original colour where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 6, Cresent, Jewin-st., London.

PURE PATENT WHITE ZINC PAINT of the VIEILLE MONTAGNE ZINC MINING COMPANY.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company in France and Belgium, is prepared to FURNISH, on a large scale, the WHITE OXIDE of ZINC in a PURE STATE, and of a quality which can only be manufactured from the Zinc from their Mines in Belgium. The Patent White Zinc Paint is superior in every respect to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea-water, sulphuretted hydrogen, or any gases, however. It preserves its original colour, which white lead paint does not. White zinc paint causes none of those ravages to invariably engendered by white lead upon the human frame; neither Painters' Colics, nor Paralysis, &c. &c., to which dangerous complaints the workmen who manufacture and use it are subject, and to which, previous to his belief, nearly painted apartments are also liable. A spurious article having been introduced in the market under the name of White Zinc Paint, the Public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first rate one.—For further particulars and Prospectuses, apply to Mr. H. F. SCHMOLL, general agent for England and Scotland, at the Company's Offices, 13, Manchester-buildings, Westminster bridge, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and retains this whiteness for years, unaffected by Mine-water, or noxious vapours from cargo. The White Paint in the hold of a ship, after discharging a sugar cargo, is found to be as white as the year before, when newly painted. Under such circumstances, where every other paint hitherto known and tried has failed, the "White Zinc Paint" has preserved the freshness of its colour. Moreover, by virtue of its galvanic action on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, and deterioration.

For the GENERAL PURPOSES of the decorative painter, the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It becomes at once capable of polishing equal to the finest coach panelling.

For SANITARY PURPOSES the "White Zinc Paint" is valuable, not only from its being totally free from every ingredient injurious to health, but from its combining chemical qualities which render it a powerful preventive where contagious diseases are prevailing; for mines or buildings painted with it are at once disinfected. Paralysis and Painters' Colics are avoided by its use, as well as similar results to the occupants of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitution. It becomes cheaper than common paint, from its spreading over a much larger surface. Part of this paint covers as much as is usually covered by 3 cwt. of white lead. Each cask is stamped with the name "Hubbuck's London—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour Works, opposite the London Dock.

CLASS II.—CHEMICAL AND PHARMACEUTICAL PRODUCTS

DAMP WALLS. — NEW ELASTIC PAINT, an effectual remedy inside or out; will dry in a few hours, and may be immediately papered over if desired.

PATENT MINERAL ZINC PAINTS, invaluable for cheapness, beauty, and permanence. READY FOR USE will stand any climate, and are well calculated for exportation. White, stone, and lead, 7s.; greens and blues, 8s. per gallon.

PATENT LIQUID CEMENT, READY FOR USE on the fronts of houses, only one-eighth the cost of oil paint; for beauty pre-eminent, giving the appearance of fine-cut stone. In casks of 1 cwt., 4 cwt., and 1 cwt., 8s., 15s., and 25s. each. Casks returnable.

G. BELL and Co., Steam Mills, 4, Wellington-street, Goswell-street, London.

EVANS'S MINERAL OXIDE PAINTS.

Office, 5, Philpot-lane, London.

Green	28s. per Cwt.
Lead Colour	28s. "
Stone or Drab	28s. "
Black	28s. "
Dark Brown	28s. "
Yellow for Turpentine	28s. "

Packages of 1 Cwt. and upwards are not charged.

These preparations of the Mineral Oxide Paints will be found more durable, and at the same time more economical than any other paint.

They are proof against atmospheric action, gases, and salt water, of which the following testimonials are sufficient evidence.

"5, Millbank-square,
"26, April, 1851.

"GENTLEMEN,

"The result of the trial of your Mineral Oxide Paints on the Buoys manufactured by us for the service of the Honourable Commissioners of the Trinity House, has been very satisfactory, both as it respects the quality and the durability of the Paints, and the economy of cost.

"You are at liberty to make use of this testimonial in their favour. "We are, Gentlemen, your obedient Servants,

Signed "BROWN, LENNOX and CO."

"4, Wharf Canal-road, Kingsland road,
London, April 26, 1851.

"We have used your paint on the various gas works which we have constructed during the last seven years, and have no hesitation in stating it to be the best and most durable covering for iron.

"We shall continue to use and recommend it as heretofore.

"We are Sir, yours obediently,

Signed "WESTWOOD and WRIGHTS."

Other testimonials can be had on application.

WATERPROOFED GUTTA PERCHA PAPER for DAMP WALLS is sold only by JEFFREY, ALLEN, & CO., 113, Whitechapel, London. PAPERHANGINGS, from carefully selected designs, and of first rate workmanship sometimes to be extensively manufactured by JEFFREY, ALLEN, & CO., on their premises as above. Improved Machinery enables them to offer great inducements to Merchants, Shippers, and the Trade, both in the price and quality of their Paperhangings.—Factory, Kent and Kent's Yard, 113, Whitechapel.

GUTTA PERCHA ESTABLISHMENT, 18, New Bond-street.—A. THORN and CO.—Looking Glass, Picture, and Print Frames, Console Tables, Brackets, Chandeliers, Cornices, and other decorations. The Trade supplied. Same terms as at the Gutta Percha Company's Works, 18, Wharf-road, City-road, London.

NOISELESS RINGS.

GUTTA PERCHA CURTAIN and CORNICE RINGS.—These rings have been much approved by the faculty, particularly for nervous and aged patients. Owing to the peculiar properties of Gutta Percha, these rings do not make a noise when drawn along the pole of rod. The following sizes may be had, either with or without loops:—Sizes: 1 inch diameter, 1¼ inch do., 1½ inch do., 1¾ inch do., 2 inch do., 2¼ inch do., 2½ inch do.

TUBING, LINING for TANKS, ORNAMENTAL MOULDINGS &c., manufactured by the GUTTA PERCHA COMPANY (Patentees), 18, Wharf-road, City-road, London.
